Aneesh Chopra is the President of NavHealth, an open data intelligence service launched by Hunch Analytics, a “hatchery” he co-founded incubating ideas that improve the productivity of health and education markets. From 2009-2012, he served as the first U.S. Chief Technology Officer and prior to that, as Virginia’s 4th Secretary of Technology. His public service focused on better public/private collaboration as described in his book, "Innovative State: How New Technologies can Transform Government.
